

Artificial intelligence at the service of your success.

Welcome to IPNet Learning Hub, where artificial intelligence is not a gimmick — it's your personal tutor, creative assistant, and intelligent evaluator.

Our AI plugins (ChatGPT, AI Quiz Generator, Feedback AI) support you in generating quizzes, auto-grading, suggesting content tailored to your pace, and even assisting with practical assignments.

At IPNET, AI transforms learning into an enhanced experience — accessible 24/7, in both French and English.

OF TECHNOLOGY

www.ipnetinstitute.com

Trained locally. Certified globally

Prepare for the most in-demand IT certifications directly from your Moodle dashboard.

Thanks to the seamless integration of partner platforms (Cisco, Fortinet, RedHat, Oracle, Huawei, Microsoft, AWS, Palo Alto, CompTIA, ISACA, EC-Council, PMI, etc.), you can access official labs, practice exams, and premium content with a single click — without leaving your course space.

All your skills are tracked, assessed, and recognized to support your career entry or international ambitions

Integration of Virtual Labs into the E-Learning Platform

Welcome to IPNet Learning Hub, the leading E-Learning platform designed to train the digital engineers and experts of tomorrow.

IPNET IXP (INNOVATION, EXPERIENCE, PRACTICE)

iPNet iXP (Innovation, eXperience, PPractice), the technological training model of IPNet Institute of Technology, where innovation, hands-on experience, and intensive practice come together to shape the engineers of tomorrow.

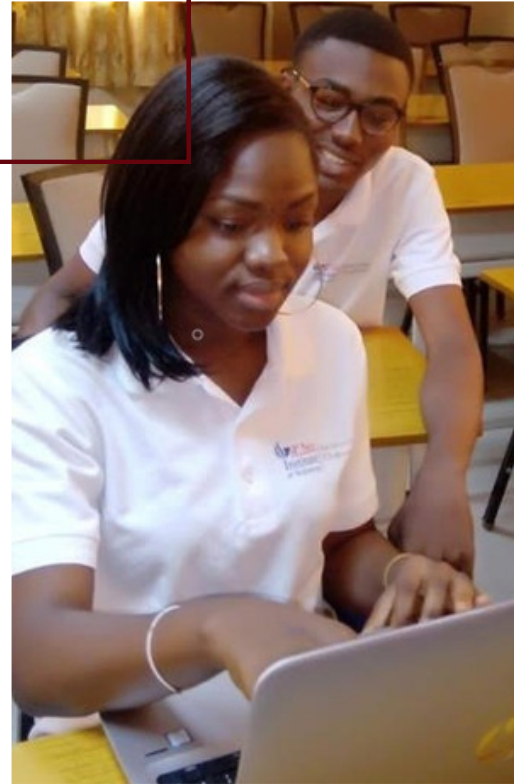

INTEGRATION OF VIRTUAL LABS

You benefit from a hybrid learning experience combining certification courses, practical work, AI, and resources (virtual labs, etc.) from the world's leading tech companies: Cisco, Oracle, Huawei, Fortinet, AWS, Palo Alto, RedHat, and more.

CAREER-ORIENTED TRAINING

Whether you are a student, trainer, or a professional transitioning to a new career, our environment offers you an immersive, flexible, and fully career-oriented learning experience.

Take exams anywhere. Cheat nowhere

Our exams take place in a 100% secure environment, whether you are in a classroom or remote.

Thanks to the integration of sophisticated learning assessment monitoring solutions, your assignments, exams, and certifications are supervised, locked, and even analyzed by AI, among other technologies.

Whether on campus or online, your academic integrity is protected — ensuring credible and valued degrees.
